

Science Cycle B Y5/6

Properties and Changes of Materials (Y5)

Lesson 6

How can you plan an investigation to separate using sieving, filtering and evaporation?

*separating
filtering*

Lesson 7

Can you write a list of instructions now for someone to carry out the processes of filtering and separating?

Lesson 8

Can you demonstrate that dissolving is a reversible state?

*reversible
reactions
physical
change*

Lesson 9

Can you plan an investigation to show how some changes in metal form new materials?

*irreversible
rusting
oxidisation*

Lesson 10

Assessment

What will we be learning about over the coming weeks?
