

Science Cycle A 5/6

Evolution and Inheritance (Y6)

Lesson 1

How do fossils provide us with information about how living things are evolved that inhabit the earth?

*adaptations
generations*

Lesson 2

Do living things produce offspring of the same kind?

*inherit
selective
breeding
offspring*

Lesson 3

Do living things produce offspring of the same kind?

*characteristics
Variations*

Lesson 4

How have animals and plants adapted to suit their environment?

*evolve
adaptive
traits*

Lesson 5

How have animals and plants adapted to suit their environment and that adaptation may lead to evolution?

*environment
evolution*

Lesson 6

How is the work of scientist Charles Darwin significant?

*Theory of
Evolution
Charles
Darwin*

Lesson 7

Assessment

What will we be learning about over the coming weeks?
