

Computing Cycle A 5/6

Data and Information - Flat-file databases - Unit 5.4

Lesson 1

How can information be recorded?

database
data
record

Lesson 2

What is a field on a database?

information
field

Lesson 3

How do we use grouping and sorting to answer questions?

group
sort
order

Lesson 4

How do we use 'AND' and 'OR' to refine data selection?

value
criteria

Lesson 5

How do we use computer programs to compare data visually?

axis
compare
filter

Lesson 6

How can we use a real-life database to ask questions?

+
Assessment

chart
graph
presentation

What will we be learning about over the coming weeks?
