Olivia T, Archie, Amber K, Sofia M, Lauren W, Millie T

View the work in the display cabinet under the canopy in the playground.

SCHOOL NEWS

THE Library has been restocked with some fabulous new books for the children, lots of new subjects and lots of new adventures for them to go on and discover. Here is just a small selection of the hundreds of super new books now stocked on the library shelves -

SPORT NEWS

YEAR 5/6 boys had a super win last week, beating Ss Peter and Paul's 3-2. Mason scored a worldie! Adam and Thomas scored the others.

"Great work rate and attitude throughout," said their coach Marcus.

"Players of the match were Adam and Oscar."

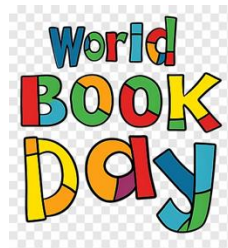

Well done team!

Website Videos

<https://www.yeadonwestfield-jun.leeds.sch.uk/>

Other staff may have uploaded videos and slideshows not mentioned here. They will have informed the children involved in them.

We have just taken part in **World Book Day**. All the children got dressed up as either an adjective or their favourite book character. We did a book swap where children brought in books they had read at home and swapped them with other children. We also had the Usborne Book Fair visit us and we had the opportunity to buy books. There is a video to view at [About Us – Curriculum – English – Reading](#). You can also see it by selection the logo below:

EXCITEMENT is building in school ahead of tomorrow's VE Day 80 celebrations! Bunting and flags have been put up around the school in anticipation of the big event.

This special celebration will provide the children with a small taste of what it might have been like to celebrate the end of World War 2 in Europe exactly 80 years ago.

There are some super activities planned for the day, including 1940s-style entertainment provided by a magician; the opportunity to watch a special online production called "During the War...", a drama specially written and devised by Theatre Online Ltd, following the life of Jenny Hobbs as she navigates life on the home front during WW2; a street party has been organised on the top playground (please encourage your child to wear red, white and blue or any party clothes they may have for the day) and various activities in class. Further information regarding food to bring for the street party has been provided in a separate email.

The whole school is looking forward to this wonderful celebration, when we will remember those who gave their tomorrow for our today.

Dear Parent Carers

Health Update – Leeds Parent Carer Forum & NHS (ICB Update) April 2025

The Leeds Parent Carer Forum (LPCF) and Health colleagues from across the NHS organisations in Leeds meet on a monthly basis to feedback and discuss parental voice and views from across the City. Based on recent feedback from members, please see the updates from our Health subgroup below.

CAMHS Medication Service

Medication reviews for those who are stable on their ADHD medication (i.e. good symptom management, no changes to treatment required) will now move to yearly reviews. This is a change from every 6 months to yearly as per NICE guidelines [Recommendations | Attention deficit hyperactivity disorder: diagnosis and management | Guidance | NICE](#) (point 1.10.1): A healthcare professional with training and expertise in managing ADHD should review ADHD medication at least once a year and discuss with the person with ADHD (and their families and carers as appropriate) whether medication should be continued. It also says in 1.8 regarding maintenance and monitoring, that those under 10 need physical health reviews every 3 months and those 11 and older every 6 months, which we will be providing in the Physical Health Monitoring Clinic. Families can also decide to do this monitoring at home or a local provider such as a pharmacy if required.

During the face-to-face physical health monitoring appointment, any concerns can be shared to the CYPMHS assistant about the medication, and this will be discussed with a prescriber regarding next steps. This may include bringing the appointment forward if this is clinically indicated. For those who complete the monitoring at home they can submit text with the readings for review as per the face to face option.

Please note this is common practice for ADHD medication management. Please see above for NICE guidelines detail. Most ADHD medications are Amber Drugs within Leeds, which means that GPs can provide repeat prescriptions but will not make alterations to the treatment plan. The GP may help with the physical health monitoring but not medication changes; all changes need to be provided by the specialist – which is Leeds CYPMHS.

Update about Oakdale

The process for individuals who have been assessed through Oakdale and live in Calderdale who want to access ADHD medication has been successful. Therefore Oakdale have now extended the offer of medication to Leeds and the rest of West Yorkshire for Young People who were assessed by Oakdale. Next steps following this will be to look at whether the medication offer can be extended to patients who have been diagnosed by other providers.

The ICB is working with getting a list of providers like Mantle, Oakdale and Evolve that will agree to local standards so there is more consistency. The list of providers who will be offering the service with these standards for assessment or medication or both should be available from late spring.

They are also producing a leaflet with frequently asked questions to go out to families and GPs about Right to Choose to inform people so they can make the right choice for their Young Person. This information is now available to view here - [Patient Choice \(Right to Choose\) : West Yorkshire Health & Care Partnership](#)

Please get in touch if there is anything you would like to discuss. You can feedback by using the feedback form on our website: [Contact Us – Leeds Parent Carer Forum](#)
